## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14, 21-23, 27-38, drawn to polymer composition and method for medical use, classified in class 424, subclass 1.73.
- II. Claims 15-20, 24-26, drawn to medical device for application of medicant, classified in class 602, subclass 41.

The inventions are distinct, each from the other because of the following reasons:

These two groups are considered distinct in that the claimed medical device of claims 15-20, 24-26 are capable of dispensing medicants other than those claimed recited in claims 1-14, 21-23, 27-38. Also the polymer recited in claims 1-14, 21-23, 27-38 could possibly be used in other applications such as being applied on bandages.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
